

# DisposeRx<sup>®</sup>

Solving the problem of drug disposal

## Helping to eradicate the misuse of unused medications

DisposeRx is a safe, convenient **at-home** medication disposal product designed to reduce the misuse of leftover medications which can be the source of addiction, overdoses and accidental poisonings. DisposeRx packets contain components that are eco-friendly and listed on the FDA inactive ingredients list for approved medications. You simply add water to a prescription vial of unused drugs and pour in the DisposeRx powder. After shaking the vial for 30 seconds, a thick gel will form making the medication unusable so you can safely throw it away in your household trash.

**Safe. Simple. Convenient.**

# DisposeRx<sup>®</sup>

Solving the problem of drug disposal

1.

Add water until vial is 2/3 full.

2.

Empty DisposeRx powder into vial, replace cap and shake for 30 seconds. Safely discard in trash.
